

Checklist for video recording

- Dress code followed
- Music playing through speakers/not headphones
- Light on performer
- Camera orientation landscape form
- Camera on tripod, or held steady.
- frame the performer in the center, with a little bit headspace and covering up to the bust.
- performer has to sing the song, like they do naturally.
- Video should start rolling before the song starts, and end 5 seconds after the song ends.
- Performer has to stay in position and keep looking at the camera till the video recording ends (5 sec after the song).
- After recording, check and rename file as Songname_Studentname
- Upload it to the google drive link sent to you.
- Inform the person-in-charge
